

CANT you just hear it now. Ten conference calls going on at once, each trying to talk louder than the next passenger. The rest are just trying to impress the rest of the plane with how important they are.

NO
cellular phones on

Airborne Aircrafts

FCC CHAIRMAN
MICHAEL K POWELL

FCC-MAILROOM

DEAR SIR

PLEASE DONOT ALLOW CELL PHONE
USE ON COMMERCIAL FLIGHTS. IF
CELL USE IS APPROVED THE USERS
SHOULD BE DELEGATED TO A
SPECIFIC SECTION (I.E. AS SMOKERS
USED TO BE) AND THEY SHOULD
BE CHARGED MORE FOR THE TECH-
NOLOGY COSTS AND THE IRRITATION
THEY WILL CAUSE TO THE QUIETER
TRAVELERS.

SINCERELY
Valerie Weiss

A Note From

Mrs. Ignatius J. DiGeorge

Dear Mrs. Powell,

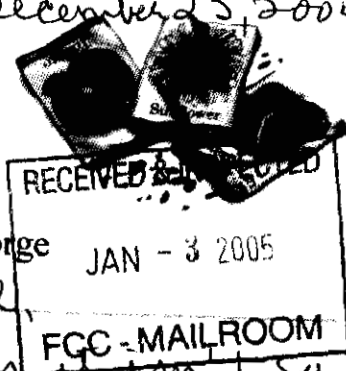

Please say I don't so.

Please don't allow cell phones to operate on airplanes. That is enough to cause people to jump out at 30,000 feet.

Cell phones, and the people who shout into them, already ruin restaurant conversations and even sermons.

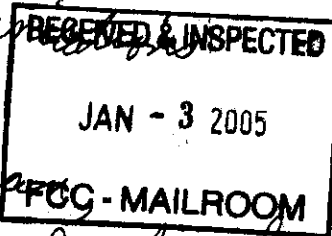

Please don't let cell phones make intolerable an already uncomfortable ride.

Yours Truly,
Patricia J. DiGeorge

Chairman, Federal Communications
Commission. (FCC)

Dear Mr. Chairman
I recently read, and also heard
VIA TV, Radio, etc about
an effort to allow
cell phone users to be able
to use them on aircraft
at all times.

I resent and protest this
idea, as it interferes with
my privacy and sanctity
& well being aboard an
airplane. Cell phone
users are the most conceited,
uncaring people I have ever
encountered. I do not fly
often, but my wife and I
don't appreciate being bombarded
with other people's incessant
jabbering. Their business
(if it truly is) can be conducted
in the airport lobby, not on

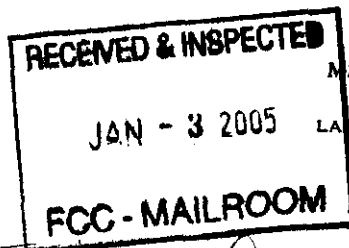

the aircraft,
we have to tolerate these
people in restaurants, on the
street, in stores, etc.

They are very annoying
and inconsiderate people
to say the least.

I have even seen
(observed) cell phone users
use the phones in the hospital
when it clearly states no
(cell) phone usage as it interferes
with life saving electronic
equipment to save lives.

Please reject this foolish
idea, before it becomes reality.

Federal Com. Commission -
Washington, DC -

Dear Sir -

Please don't allow cell
phones on airplanes! You must
have enough technology for air
marshalls to communicate
unobtrusively, without having
80% of passengers yapping
into their cell phones on our
flights. It is a huge intrusion
of quiet and privacy to have
someone near or next to you
y

talking - talking -
talking!

Please, don't
allow this.

Joan Hughey

FOC - MAILROOM

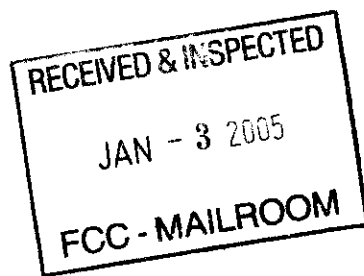

Please, please, please DO NOT lift the ban on cell phone use on airlines in the air. I'm sure the technical reasons for the ban are still valid. But more importantly, the comfort of passengers is supreme. It is bad enough to have to listen to inane conversations in the airport, restaurants, in elevators, etc. But to be the captive audience in the small space of an enclosed airplane is cruel and unusual punishment - which is illegal.

Thank you for your attention to this matter.

FEDERAL COMMUNICATIONS
COMMISSION

GENTLEMEN:

PLEASE - NO CELL
PHONES ON AIRLINES!

BUT YOU KNOW WHAT?

IT WILL BE ALLOWED

ANYWAY.
